

The Dehydrated Baby Food Company

MILES OUTSIDE

Dear Store Manager/ Store Owner,

I am contacting you in regards to requesting that your establishment carries Miles Outside, The Dehydrated Baby Food Company. I buy this product regularly at other retailers, but I would love to buy it at your location!

Miles Outside is a unique product unlike any other baby food on shelves today. Its dehydrated organic fruits, veggies and cereal are simple and convenient to use for on-the-go families like mine. I can just mix Miles Outside with liquid—including breastmilk—to create a delicious and nutrient-filled cereal that my kids love! You can even fix the amount of liquid to create a chunkier texture so the food suits my kids' needs as they grow.

The best quality about Miles Outside for stores like you is that the dried foods have a long shelf-life. Miles Outside lasts for 18 months unopened. The packaging is also compact enough to easily fit on shelves and lightweight enough to ship cost-efficiently.

For these reasons, along with many more, I hope you consider putting Miles Outside on your store's shelves. For more information, call 941-914-1721 or email Courtney@milesoutsideorganic.com.

Your loyal customer,
